

CHILD ONLINE PROTECTION PORTAL

Geraldine Mugumya

DIRECTORATE OF INFORMATION SECURITY

30th JUNE, 2020

Objective

- An initiative of the National Information Technology Authority – Uganda (NITA-U) to raise awareness on how protection can be achieved for the children that actively use the internet.
- A good resource for parents, guardians and schools to get best practice information on how to educate and guide their children on safe internet use.

Resources on the COP portal

- Tips for kids, teenagers, schools and parents for online safety
- Latest news regarding new safety features for the commonly used applications such as YouTube
- Resources that can be downloaded and shared with peers
- Online reporting tool for online child sexual abuse

Value

- One centralized place online, where one can easily find information about online safety. The more information available, the further we can collaboratively drive awareness in this day & age where internet is central to daily life.
